COMPLETELY AUTOMATED

Organizations today are increasingly focused on systematically managing visitors to their organization.

It has become imperative to identify and record how many visitors are visiting the premises on a daily basis, how many hours is each visitor spending on the premises, how often and why are they visiting, etc.

EASY REGISTRATION

A bilingual solution (English & Arabic) that streamlines all your visitor management processes.

Whether your need is to automate the front office operations, track repeat visitors or to secure your premises, VMS is a one stop solution to all. Consider standing in long queues to sign-in to a register to enter your reception area.

VISITOR ARRIVAL

On arrival, visitors are provided with touch device with multiple option for registering.

Visitors can input their details just by scanning their emirates id card and later they can select the person to whom they meet from the available list, can enter the check-in time, after that badge will be printed and message will be alerted to host.

•EASY AND SMART SIGN-IN

Seamlessly capture visitor information using emirates ID .

•SIMPLE CLICK REPORTS

You can access your visitor lists, and create reports through our web backend interface.

•REGISTRATION THROUGH OUTLOOK

Seamless integration with Microsoft Outlook. When meeting booked in outlook it will reflecting in Visita.

•SIMPLE AND SMART CHECK-IN , CHECK-OUT PROCESS

maximizes your front desk's efficiency by allowing the receptions to work on other important projects while your visitors sign themselves in.

•INSTANT VISITOR ARRIVAL NOTIFICATIONS

Receive visitor arrival notifications using email or SMS. This saves your receptionist a ton of time as they don't need to call or email the host anymore.

•PRE-REGISTER VISITOR

Pre-register visitors before they arrive. Select a host and schedule a visit with date, time and location information.
